Sizes Available: 60" & 72"

QUALITY YOU EXPECT FROM BERLON!

**HOSE & COUPLER KIT SOLD SEPARATELY
SEE PG 957 FOR MORE INFORMATION**

Sand Shooter

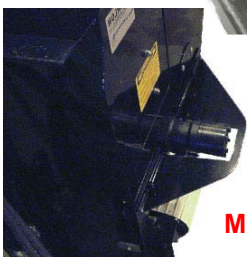

Part # SASH

BETTER DESIGN EQUALS BETTER PERFORMANCE!

With the bucket/hopper combination, one scoop and you are ready to go! The adjustable speed auger moves material to the hopper opening where it drops on to a bi-directional conveyor belt with molded flighting. Material is not stored on the belt which can prevent the belt drives from spinning. The material stays in the hopper unit until it's time to go, saving wear and tear on the conveyor.

Auger

Motor Guard

Features

- Self Loading:** Bucket design allows you to scoop and go
- Bi-Directional:** Discharges material to either side
- Adjustable Auger Speed:** Adjust by engine RPM & Hydraulic Valve
- Adjustable Belt Speed:** Adjust by engine RPM
- Open Concept Drives:** Conveyor drives are designed so material will not get between drive and belt
- High Centered Drives:** Keeps belt running in the middle
- Operates on Standard Flow Rates:** 2 GPM—20 GPM
- Durable design:** Powder coating, motor guard & more
- Easy to Maintain:** Conveyor assembly removes as a unit (4 bolts-2 hoses) for fast, easy bench service
- Hopper Capacity:** 60" @ 26.14 Cubic Ft (less than 1 Cubic Yd)
72" @ 31.70 Cubic Ft (greater than 1 Cubic Yd)
- Standard Mount:** MPUF-1
- Case Drain:** Device to reduce back pressure on return lines
